The Team's mission is to create sustainable community wide partnerships with existing organizations and stakeholders for the development of future programs and events that generate buzz, awareness and advanced educational opportunities in celebration of our states most precious resource, entrepreneurs, small and micro business owners during or near the time(s) that has been officially recognized by our State and Federal governments as "Entrepreneur Week" or any other times deemed appropriate by the Leadership Team.

Some of the marketing efforts to promote awareness already in development are web radio and TV interviews of community leaders, schools and others to be broadcast on ArizonaWebTV.com.
